SAN DIEGO, CA / 408.835.8195 / Jaw.etch@gmail.com / <https://etchmon.github.io/Etch-Portfolio/>

Bio

I'm a Full-Stack developer passionate about creating enjoyable user experiences.

Vast experience providing impeccable customer service in the hospitality sector.

I enjoy working with others in a team environment and solving problems.

Seeking a challenging position to help me grow as a developer and apply my skills in a meaningful way.

Projects

MyCookBook

A Full-Stack social recipe website where users create their own account, add recipes to their personal cookbook, or select new ones from the social stream of recipes. Your online, ever growing, friendly cookbook. [Website link](#) / [GitHub link](#)

Tanooki James

A landing page commissioned for rapper Tanooki James showcasing 3 of his most popular albums. Links leading to his personal Soundcloud to check out the complete collection of his music. [Website link](#) / [GitHub link](#)

Deep Dive

Deep Dive is a website that asks you to look into your hearts and find some time to care about the ocean. It highlights the biggest threats to our oceans currently, while using advanced CSS techniques. [Website link](#) / [GitHub link](#)
